## SKILLS

Code	Design
React.js	UI/UX design
Vue.js	Graphic design
Node.js	Illustrator
Javascript	Photoshop
HTML	Invision
CSS	Adobe XD
Python	Sketch
C#	Lightroom

## COURSES

### Computer Science

Rapid Prototyping for Software  
Game Design and Development  
Artificial Intelligence  
Machine Learning  
Computer Systems

### Design

Human Computer Interaction  
Visual Communication Design  
Architecture: Fundamentals Studio  
Service Design Studio  
Data Journalism  
The Art of Storytelling  
Introduction to Neuroscience  
Drawing Methods

## EDUCATION

**Northwestern University** Expected 2020  
B.A in Computer Science GPA: 3.94  
Certificate in Design, Segal Design Institute

**United World College of India** 2014 - 2016  
Valedictorian, IB Diploma Program Score: 44/45

## EXPERIENCE

**Application designer and developer** June - Present  
Oscillations, San Francisco (arts and technology)  
Designing and developing an AR app for both native and web, using agile processes under mentorship of Ilya Flomin.

**UI/UX Designer and Front-end Developer** April - Present  
ISO Athletic, Northwestern (sports analytics)  
Led UI/UX design and front-end development in Vue.js for an iPad web app that doubled number of clients

**Designer and Developer** Summer 2018  
iNet-Web, Wisconsin (graphic and web design)  
Designed websites, t-shirts and logos for clients. Delivered quality work under tight deadlines.

**Software Engineering Intern** Summer 2017  
TherapyOS, San Francisco (VR and healthcare)  
Created an immersive therapeutic experience for children with autism: a VR app for Android phones developed in Unity.

## SELECTED PROJECTS

**IDEO Colab Makeathon, Cambridge** Oct 27 2017  
Conceptualized a cryptocurrency wallet for children at an event. I was the youngest person selected from 700 applicants.

**Intuit + Northwestern, San Francisco** Winter 2018  
Collaborated with Intuit Design Team to create new financial service offerings for healthcare.

\* happy to dive further into this and other projects
