### Design

Human Computer Interaction  
Visual Communication Design  
Architecture  
Drawing  
Service Design  
Data Journalism  
The Art of Storytelling

### Computer Science

Rapid Prototyping for Software  
Game Design and Development  
Computer Systems

### Other

Neuroscience  
Artificial Intelligence  
Machine Learning

## EDUCATION

### Northwestern University

B.A in Computer Science GPA: 3.94

Expected 2020

### United World College of India

IB Diploma Program IB Score: 44/45 (Valedictorian)

2014 - 2016

## EXPERIENCE

### Application designer and developer

June - Present

Oscillations, San Francisco (arts and technology)

Designing and developing an AR app for both native and web, using agile processes under mentorship of Ilya Flomin.

### UI/UX Designer and Front-end Developer

April - Present

ISO Athletic, Northwestern (sports analytics)

Led UI/UX design and front-end development in Vue.js for an iPad web app, that potential clients found very impressive.

### Designer and Developer

Summer 2018

iNet-Web, Wisconsin (graphic and web design)

Designed websites, t-shirts and logos for clients. Delivered quality work under tight deadlines.

### Software Engineering Intern

Summer 2017

TherapyOS, San Francisco (VR and healthcare)

Created an immersive therapeutic experience for children with autism: a VR app for Android phones developed in Unity.

## PROJECTS

### IDEO Colab Makeathon, Cambridge

Oct 27 2017

Youngest person selected from 700 applicants. Conceptualized a cryptocurrency wallet for a child, working in a team of four.

### Intuit x Northwestern, San Francisco

Winter 2018

Recommended incorporating HSAs in Mint to Intuit Design Team. Developed personas, journey maps, etc. in team of four.
