Drawing Methods

EDUCATION

Northwestern University

B.A in Computer Science
Certificate in Design, Segal Design Institute

Expected 2020
GPA: 3.94

United World College of India

IB Diploma Program

2014 - 2016
IB Score: 44/45 (Valedictorian)

EXPERIENCE

Application designer and developer

June - Present

Oscillations, San Francisco (arts and technology)

Designing and developing an AR app for both native and web, using agile processes under mentorship of Ilya Flomin.

UI/UX Designer and Front-end Developer

April - Present

ISO Athletic, Northwestern (sports analytics)

Led UI/UX design and front-end development in Vue.js for an iPad web app that doubled number of clients

Designer and Developer

Summer 2018

iNet-Web, Wisconsin (graphic and web design)

Designed websites, t-shirts and logos for clients. Delivered quality work under tight deadlines.

Software Engineering Intern

Summer 2017

TherapyOS, San Francisco (VR and healthcare)

Created an immersive therapeutic experience for children with autism: a VR app for Android phones developed in Unity.

SELECTED PROJECTS

IDEO Colab Makeathon, Cambridge

Oct 27 2017

Conceptualized a cryptocurrency wallet for children at event. I was the youngest attendee selected from 700 applicants.

Intuit + Northwestern, San Francisco

Winter 2018

Collaborated with Intuit Design Team to create new financial service offerings for healthcare.

* happy to dive further into this and other projects
